

**School of Education, Social Work and Community Education**

**MSc in Applied Professional Studies  
(Community Learning and Development)  
Postgraduate Diploma in Community Learning and Development**

**Full-time Mode**

**Commencing August 2008**

This programme is designed to prepare graduates for a professional career in the broad field of community learning and development with an initial professional qualification. Students may choose to exit with either an MSc or a Postgraduate Diploma in Community Learning and Development, both of which include the professional qualification.

Key themes of the programme reflect the current interest in Lifelong Learning Inclusion and Community Capacity Development. The programme includes a fieldwork placement in a community-based agency. The curriculum design is focused on achieving the capacity for critical thinking and reflection, which together with the demonstration of professional competence, make this a dynamic, challenging programme of study. Please see our webpage here for more information where you can download an application and reference forms;
